WILL STRIKE FOR WAR.

Workers at Italian Ports Expected to Force Participation.

Rome, April 16.—The Ideal Nacionale said it is probable a general strike will break out at Italian ports in order to force the government to go to war. In telegrams sent by M. Sanoff and Grand Duke Nicholas to a Russian journalist in Rome and published here M. Sasnoff says: "Several times Rus-sia has extended an invitation to Italy to intervene in the war. If that does not happen the responsibility for the consequences must not rest with Russin or her allies."

Grand Duke Nicholas says:
I hope soon to see the gallant army
of Italy take the field with us."

WORKERS PROTEST USE OF NAVY YARD 'SYSTEM'

Navy Yard Employes Resent Plan of Keeping Tab on Them and Want It Curtailed.

At a meeting of Columbia Ledge, No. 174, composed of 1,400 employes of the Washington Navy Tard, the proposed extensions in the system of shop management at this yard were discussed. The employes feel that a point has been reached when an emphatic protest must be registered against not only the further extensions of the present system of shop management, but also against parts of the system that are in operation.

Organized labor is unalterably opposed to these so-called systems of scientific management, whether they be called the Taylor system or not: primarily due to the drastic uses that they can be put to. Often it has been necessary to protest against apparently innocent innovations, due to the fact that several of these, which are innocent in themselves, when

The crisis in the present instance is due to the proposed introduction of a "progress section," which has for its duties the keeping of closer tab on the progress of the work, and in which the employes see an opportunity for the management to continuously meddle with their duties throughout the day. They ay it is another step in the direction of

While in every succeeding step the em ployes are assured that none of this is going to hurt them, yet they find the reins are tightening all the time; their privileges are being curtailed; the scope of their movements is being more closely confined, until it is reaching a point where it is making a man a part of the

It was felt that a great deal of this work was unnecessary and was merely adding to the cost of production. The Winning Wonder

The Wonder Wins on merit and on merit solely. There is no other inducement than value ever offered in a Wonder Suit. There is never a special sale (so-called); Never "a factory-damaged lot;"

Never a "surplus stock" to be got rid of. There is never any alleged reason for selling for less than regular prices at a figure that you must make up at some other time or some other man must. We never charge a higher price at the beginning of the season in order to make up for the difference in lower prices at the end of the season.

YOU CAN'T PAY MORE YOU CAN'T PAY LESS YOU CAN'T BUY BETTER

For sheer, downright value you can't duplicate Wonder. Clothes. The style perfection, the cloth quality and the tailoring excellence is absolutely without equal anywhere at anything like the price.

We want you to prove this to yourself-it will take but a minute for a Wonder Suit to demonstrate to you its value.

We save you from \$5 to \$8 on every garment because we sell direct from maker to you.
